G. Committee Reports

- **Greer/ARC**
 - Committee had their monthly meeting.
 - Working on implementing impact fees. The Committee is sending a proposal to OBOA in January explaining what the impact fees are, an all-inclusive impact fee policy that are in alignment with OBOA covenants, how monies are collection, etc.
- **Clark/Trash**
 - Thank you to Tommy Maines and the Club for your help to keep the garbage area clean.
 - We are still waiting on the motor for the hydraulic compactor. The hydraulic motor has been inoperable. Waste Management believes it might take six weeks for the motor to be delivered.
 - Olde Beau's Waste Management representative is on a 30-day leave of absence. Bill Clark has the phone number of the interim rep.
 - Upon inspection by an electrician, it was determined that the compactor's electrical panel is mislabeled and a potential health hazard. The panel is to be secured with a lock until the issue is corrected.
 - Neil Robinson made a motion to have the electrician out as soon as possible to make the appropriate repairs not to exceed \$5000. Tom Adams seconded the motion. The motion passed unanimously.

- OBOA's three-year contract with Waste Management is up in 2023, and the Board needs to give a one-year notice if we intend to cancel the service. Bill Clark will contact Republic and Waste Management and give the Board a status update before the next meeting.
- **Robinson/Roads**
 - The OBOA is in the process of setting up a Villa Road Assessment Committee as additional assessment is needed to determine potential corrective actions for water issues in and around the villas. The OBOA Board will ask Anne Rawls for suggestions and volunteers.
 - Kathy Davis is asking the developers for a commitment letter for the paving of roads from the back gate to County Downs to Turnberry Drive and Turnberry to Beau's View.
 - The street signs ordered in May were delivered November 15. The previous marked utility locations for digging have expired so new markings are needed to proceed. The maintenance crew will be installing them as soon as possible before the ground freezes.
